CHANGE OF ADDRESS:

When changing address give old as well as new address.

All communications must be signed, or they will receive no attention whatever.

THURSDAY, JANUARY 27, 1916.

Attorney General Gregory publicly

promises not to "harass business."

The promise is not necessary. Business

has recovered its nerve and won't

stand for harassing. Jurists don't

seem to approve of it either. So there

you are.

In New York state there is a per-

sistent and widespread demand that

publicity be given to the expense ac-

counts of state officials who went to

the San Francisco exposition. Now

it would be just like some heartless

advocate of "cruelty publicity" to ask

that similar disclosure be made re-

garding federal officials and employ-

ees who made that trip and took advan-

tage of the opportunity enroute to tell

the American people of the wonder-

ful achievements of this administra-

tion.

Although eastern manufacturers

and exporters have been the chief

beneficiaries of war order business,

it is reported that one wheat export-

er at Portland, Ore., has made "a cool

million" on contracts for shipment

of wheat to the warring nations.

There are evidently a few "spoils" of

war prosperity in the far West.

Falls to Fool the People.

The report of the general board of

the navy was made public in two

chapters. The first to appear was a

report written to order. The other,

prepared much earlier, contained the

real opinion of Admiral Dewey and

his associates—and Josephus Daniels

tried to suppress it.

The difference between the two re-

ports is that the earliest—in date—

outlined a program of naval construc-

tion which the patriotic naval experts

in the board deemed necessary for

the proper protection of the coun-

try. The other report contains a

building program limited by the

amount of money which Josephus

Daniels is willing to spend. Admiral

Dewey wants to protect the United

States. Josephus Daniels wants to

protect the Democratic party. That

is the essential difference between

the two programs; and Mr. Daniels

thought to accomplish his purpose by

the simple expedient of smothering

the first and genuine Dewey pro-

gram.

He failed in this purpose, mainly

because knowing people insisted that

all of the general board's recom-

mendations—spontaneous and forced

—should be made public. Josephus

Daniels was at first inclined to blus-

ter, to assume a sort of public be-

demeaned attitude, the attitude, in fact,

which is most often taken by this

administration—and it was only when

he perceived that a congressional in-

ing on munition contracts which have been parceled out to them by the regular contractors and the newspapers seldom hear of it, but the machine shops of the state, big and little, are, practically all of them, working on contracts for some sort of supplies for the Allies. The woolen mills on the Ottaquechee river and in the valley of the Ottaquechee are "full up" with orders and advertising for additional help. The canning factories are going full tilt and sending their products abroad as fast as they can. The hydro-electric concerns are pushed to the limit on every hand. Secretary Redfield will please take notice that Vermont is being enriched by the European war, not by Democratic policies.

Thrift in the Home.

Thrift is good management, and nowhere is good management more manifest than in the home. You can soon tell what manner of housekeeper the wife is, for the impress of her ideals and ideas is on every hand. She can waste all the husband earns or she can save the major part.

Housekeeping is the most complicated work in the world, and she that keeps a house well is a good business woman. She can make her work drudgery or she can make it a pleasure. Men fall in business and the world knows it; but how many home failures there are of which the world never hears!

It is easy to detect the woman who fails as a housekeeper. If you see the dishes unwashed, the children unkempt, clothes strung all over the house, the bath littered, the corners dirty and a general air of neglect you may depend upon it she has failed as a business housekeeper. She does not know how.

Writing in the Ladies' Home Journal, one woman tells how she succeeds as a homemaker and as a business woman in the home. She aims at simplicity. She has simple furnishings, but good. She has no "parlor"—that abomination of olden time, but a living room, where they really live. Most parlors are merely to look at, not to use. She has simple meals—things "they are all stuck on," as her little boy puts it, but lots of them. Baked beans only, but lots of them and good. And who couldn't make a meal on the beans mother used to bake?

She has no curtains at the windows; her windows are for light and air, not to display curtains and catch the dust and keep out the sunlight. She wastes no food. She allows the children to take only as much as they can eat and no more. If they leave any food on the plate, the next meal begins with that cold plate! Her garbage pail is for waste, not food. "Swell Swill" costs money, and "pigs is pigs" and relish potato peelings as much as ice cream.

She does not make her attic a junk shop. She makes it a storehouse; cleans it once a year, but that is all. She has order in the kitchen. She saves time by having things in order. She doesn't dry her dishes but "scalds" them and lets them dry themselves—and they can do it better than she.

She uses a "letter press" to "iron" socks and towels and coarse articles that other women break their backs over to no useful purpose.

A fireless cooker saves gas and time and food. She keeps biscuit flour mixed with the proper proportion of salt and baking powder and biscuits for her oven in five minutes! She has all her kitchen utensils handy, cans and receptacles labeled, and thus she saves steps. Some women walk too much on their jobs. She always has change in the house, runs no accounts, pays cash on delivery, weighs her purchases and takes nothing for granted. She keeps accounts of all her expenditures and knows where her money goes and what it buys. She doesn't hire much help because she doesn't need it. She studies her job and succeeds because she knows how.

THE DAILY NOVELET

THE SILVER BOX.

People who are weighed in the balance and found wanting generally blame it on the scales. —Prof. Simp.

(This week's mystery.)

"Look!" taunted Rudolph Rheinwein.

Lifting the silver box high above his head, he hurled it into the ocean where the sign read: "No wading here. Depth 600 feet."

On a soft rock in the ocean-bed, Carrie, the mermaid, was combing her seaweed and yawning, when Flavia Occup's silver box fell into her lap.

"If it's from that fish Webble I'll send it back," she thought, and opened it.

"At last!" she cried happily, swallowing the comb in her excitement.

Two mornings later, Flavia Occup awoke and scratched her arms. If she had stopped there this tale would end here. But next she tried to scratch her limbs. Horrors!

There seemed to be only one limb there! And it wouldn't scratch! Horrors!

Scales!

(One of the managing editor's vacant check books, with the stubs, will be presented to the reader submitting the first correct solution of "The Silver Box.")

New York streets are congested, not only on the surface, but below the level.

WEST VIRGINIA BRIEFS

HUNTINGTON: One hundred Cabell county children attending rural schools will take the statewide uniform examination for eighth grade pupils on February 2 and 3. The successful candidates will be awarded certificates that will give them credit standing as freshmen of any high school or normal in West Virginia.

HINTON: Under a deed of trust, the Greenbrier Springs property, consisting of the springs, hotels, farm land, etc., but not including cottages owned by individuals, has been sold for \$5,500, a sum away below its value. The springs property is of considerable value and was improved a few years ago by a number of Hinton people.

KINGWOOD: After one of the hardest fights ever waged on a public measure in Preston county, voters of Kingwood district carried by a plurality of forty-five over the necessary three-fifths the proposal to issue \$164,000 in bonds for good roads.

GRAFTON: At the annual meeting of the Merchants' Association of Grafton, A. A. Doak was elected president, B. W. Perfine first vice president, C. A. Keefe second vice president, C. V. Miller treasurer and G. L. Joffile, A. V. Skelley, S. K. White, N. C. Musgrove and J. B. Bradford executive committee.

FAIRMONT: Officers of the Monongahela Valley Traction Company announced that it will construct a new terminal station, four stories high of steel and concrete, this spring on the site of its present station at Clarksburg.

HUNTINGTON: The West Virginia tobacco crops for 1915 are beginning to come into the market, more than a million pounds having been sold the last week in the Huntington market. The average price paid this week for fifteen cents a pound, F. M. Jordan, of Clendenen district, Mason county, got as high as twenty-nine cents for his tobacco. J. Hatfield, of Beech Fork, Wayne county, realized \$500 from a single acre.

CHARLESTON: Every practicing physician in West Virginia has been sent a communication by the department of health calling attention to the law with reference to making accurate records of vital statistics, including births and deaths and all kinds of contagious disorders treated. There has been a general failure on the part of doctors to report infections a contagious ailments, although failure to do so is punishable by a fine of \$100.

HUNTINGTON: Jilted by Miss

Beattie Meade, of Charleston, J. W. Burke, of this city, entered suit in the circuit court here for \$1,700 he alleged he advanced her in the belief they were to be married. Burke claims he advanced the money at various times to Miss Meade, who, at the time their marriage was to have taken place, eloped to Atlantic City and was there married to a man named Nutter.

CHARLESTON: A telegram received here from Logan told of the conviction of Millard Hale for first degree murder. Hale was a deputy sheriff and shot and killed Leslie Adkins, of Huntington, in the Chesapeake and Ohio railroad yards at Logan last June. This was the second trial, the first having resulted in a jury disagreement.

CHARLESTON: More than 100 prominent coal operators met here last night at a dinner given by John Laing, as a compliment to George W. Stevens, president of the Chesapeake and Ohio Railroad Company.

MANNINGTON: J. B. Marr, one of Mannington's most prominent residents, is dead at his home of a severe cold after an illness of two weeks. He formerly conducted a furniture and undertaking concern here.

CHARLESTON: George Carpenter was found wandering in the streets here with a well-developed case of smallpox. He said the members of his family had kicked him out of doors when they discovered he had the disease. Police and health officers are investigating.

CHARLESTON: Freight traffic on the Great Kanawha river has decreased to such an extent that two packets have been tied up and will not resume their trade for months at least. The remaining packets are carrying but little freight and may also either go into other trades or tie up.

PARKERSBURG: Special Agent Robert H. Judge, of the department of justice, who was here for several days conducting an investigation into circumstances affecting the Hoblitzell party of men and women who were drowned in the steamer Kanawha, and who were suspected of doing secret work for the German government, has completed his investigation and made his report to the department. He gave out nothing concerning this report.

CHARLESTON: Announcement is made by W. C. Barnhart, United States district attorney, that the federal authorities will suspend prosecution against Mrs. Clyde Petry, of Hinton, who is charged with violation of the internal revenue law. She is physically unable to appear for trial.

Ing near the top of the sand at a test on the Ash heirs' farm. In Union district, Harrison county, the South Penn Oil Company completed No. 4 on the I. R. Carter farm and secured a ten-barrel pumper.

Southeastern Ohio.

The northern end of the deep sand territory in southeastern Ohio shows some improvement in the size of the field. Near Nashport, in Jackson township, Muskingum county, the Columbus Oil and Fuel Company has been meeting with fair success, and is the largest holder of territory in that end of the field. The company has drilled its test on the Fleming heirs' farm through the Clinton sand and it produced forty-five barrels the first twenty-four hours. The location is 1,100 feet north of the same company's production on the L. S. Romine farm.

Shallow Sand Territory.

In the shallow sand territory, in the Newport district, Independence township, Washington county, Edgar and Company have drilled a test on the George Edgar farm fifteen feet into the second Cow Run sand and developed a very good gasser. In Newport township E. M. Booth is rigging up at No. 4 on the Braun farm, located 350 feet north and east of the good producer on the E. A. Meyers farm, which had an initial production of 200 barrels. In the Rena Run district E. W. Thornly has started to drill No. 7 on the M. Thomas farm.

In the Berea grit development near Caneville, Brush Creek township, Muskingum county, the Clay Oil and Gas Company has a five barrel producer at its test on the Harrison Jenkins farm. The Blue Rock Oil

MINERS LOOK OUT

When you first notice a cough—even that little tickling in the throat, which some think is a "mere cold," it may mean serious trouble for you, because the dust of the mines often brings bronchitis, pneumonia or consumption—even to men stronger than you.

What you need—and need at once—is a bottle of Scott's Emulsion to check the cough and help the linings of the bronchial passages to prevent sickness and loss of "time."

In Scott's Emulsion you get pure cod liver oil blended with glycerine and hypophosphites which quickly improves your blood, fortifies your lungs and builds up your strength. It is free from alcohol. Physicians prescribe it every day. Beware of substitutes.

Scott & Downe, Bloomfield, N. J. 15-27

and Gas Company's test on the James Morgan farm is a very light pumper. The Neely Clover Company had the same kind of luck at its second test on the Margaret Boyd farm. In the same district Edward Denman has the rig completed for a test on the Ora Wilson farm and Fritz and Swingler are starting a test on the Jacob Heirigle farm.

In the Dorseyville field, Allegheny county, Pa., the National Oil and Gas Company is delayed with a fishing job at its No. 2 well on the Stephenson farm. The Rushville Drilling Company is drilling in the top of the third sand at a second test on the Seibert farm. On the west side of the pool Alexander Walley drilled his No. 2 on the McFarland heirs' farm into the Thirty-foot and as soon as the well began to show oil it was shut down to erect tankage. The National Oil and Gas Company has completed No. 3 on the A. Haas farm and it is producing fifty barrels a day.

BEE STINGS

Local Italian with Liquor in His Possession after Buzzing Around Quite a While.

PARKERSBURG, Jan. 27.—John Limonetta, who is said to belong in Clarksburg, has been arrested by Probation Officer J. Walter Bee, who

GIRLS—DO YOU KNOW WHY YOUR HAIR IS UGLY?

Many women do not realize the necessity of keeping the hair and scalp absolutely clean in order to look their best. And yet, with only a few minutes of tonic massage, the hair may be brought to a beautiful, thick, lustrous luxuriance, and that at a very little cost.

Just try these few simple directions today: Into the palm of the hand pour a little Parisian Sage, a rigidly guaranteed, inexpensive and most beneficial preparation to be had at any drug store; thoroughly wet the hair near the scalp with it and then rub vigorously until a soft tingling sensation comes stealing over the head. Do this regularly for a few days and you will surely be surprised and delighted with the results. The genuine Parisian Sage is obtainable from Wells-Haymaker Company, who always sell it with an absolute guarantee of perfect satisfaction to the user or the money will be returned.—Advertisement.

ANNOUNCEMENT

To the voters of Harrison county:

I hereby announce my candidacy for the Republican nomination for Sheriff of Harrison county, subject to the decision of the primary election to be held Tuesday, June 6, 1916.

I most earnestly ask your support and influence, and if nominated and elected, I not only promise to discharge faithfully and fearlessly the duties of the office, but will give my very best service to ALL the people.

L. WAYMAN OGDEN,

Clarksburg, W. Va.

vent out on the early accommodation train and caught the accused with a lot of unlabelled liquor. He placed him under arrest, brought him to the city and placed him in the county jail. Bee states that Limonetta has been engaged in bootlegging and has been under surveillance. He came to Bolpore from Marietta and boarded No. 4 at Bolpore with the intention of going on through east, but when Bee got aboard of the train he Limonetta got off and hiked back to Marietta. Bee kept a watch on the other trains but did not see him aboard, but he got a tip that Limonetta intended getting the accommodation at Stewart Station and the officer went to that point.

where he found him with a lot of unlabelled goods, ready to get aboard of the train, having made the trip to Stewart Station in a cab. The officer states that the accused offered him \$5 to allow him to get aboard of the train, or any other sum he might name to settle the matter.

Beware of Tablets and other unknown remedies which are sold for the relief of headache and neuralgia; take

YOUNG'S HEADACHE POWERS

They have been on the market for many years and there has never been a complaint made against them, nor a single case where their use produced harmful results. However, a headache is only a symptom of other trouble, and headache powders should be taken only for immediate relief and your physician consulted with the view of ascertaining and removing the trouble. At Drug Stores, 10c Package.
